

SIVANAND RAMACHANDRAN

UI/UX DESIGNER & DEVELOPER

+91 9582877041 | shivaanand435@gmail.com | [linkedin.com/in/sivanand-887317289](https://www.linkedin.com/in/sivanand-887317289) | Delhi, India

Portfolio: sivanand-ramachandran.netlify.app

Detail-oriented UI/UX Designer and Hybrid Developer with specialized internship experience building end-to-end digital products. Adept at translating user research into high-fidelity Figma prototypes and bridging the gap between design and development using HTML, CSS, JavaScript, and React. Proven ability to establish cohesive design systems and optimize user flows to maximize engagement and conversion.

CORE SKILLS

Design & Tools: Figma, Wireframing, High-Fidelity Prototyping, Component-Based Design Systems, User Flows, Information Architecture, Usability Testing

Development: HTML5, CSS3, JavaScript (ES6+), React, Responsive Web Design, GitHub Version Control

Methodologies: Agile Collaboration, Cross-functional Handoffs, Accessibility (WCAG) Standards, User Psychology

PROFESSIONAL EXPERIENCE

CodTech IT Solutions Pvt. Ltd — Remote UI/UX Design Intern

07/2025 – 09/2025

- Designed intuitive, client-facing web interfaces and interactive Figma prototypes, reducing user navigation friction across 3 core client web platforms.
- Conducted user flow mapping and built comprehensive developer-ready Figma handoff documentation, accelerating frontend engineering timelines by 15%.
- Applied strict principles of visual hierarchy and responsive breakpoints to deliver consistent, accessible experiences across mobile, tablet, and desktop layouts.

Eryx Innovations Lab — UI/UX Design Intern

01/2026 – 04/2026

- Built and maintained a scalable Figma UI kit containing 40+ reusable components and variants, establishing design system consistency across agency web projects.
- Polished and restructured responsive section layouts, improving mobile usability and aligning visual design with client brand identity guidelines.
- Collaborated directly with engineering teams in agile sprints to audit frontend implementation, ensuring pixel-perfect translation from Figma files to code.

PROJECTS

AI Resume Scanner Platform

- Conducted a rigorous competitor analysis of existing ATS platforms to identify UX bottlenecks in candidate onboarding flows.
- Redesigned the entire candidate document upload and analysis flow in Figma, simplifying a chaotic process into a seamless, 3-step interaction pattern.
- Created a responsive desktop/mobile component library featuring active loading states, error handling tooltips, and interactive data visualization panels for scanner results.

E-Commerce UI/UX Overhaul

- Designed a complete end-to-end e-commerce experience spanning product discovery, micro-interaction-heavy shopping carts, and a streamlined, single-page checkout flow.
- Optimized layout architecture and conversion-focused CTAs based on e-commerce usability best practices, reducing potential cart abandonment drop-offs.
- Conducted rapid internal preference testing on checkout screen iterations to validate field layouts and clear error-validation states.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Professional Studies

B.Tech in Computer Science & Engineering (CSE) | 08/2022 – Present

CGPA: 7.75 / 10
